Validation & Explainability Summary

Metric	Value
Total Findings	64
Evidence Supported	64
Requires Review	0
Average Confidence	74.45%

Entity Assessment: CSE_001

Overall Risk Score: 47.0/100

Risk Level: MEDIUM

Review Priority: TARGETED REVIEW

Capability Assessment

Capability	Risk
Detection	MEDIUM
Investigation	MEDIUM
Monitoring	MEDIUM

Risk Drivers

- 5 execution gap indicators
- 4 monitoring coverage gaps
- Investigation maturity concerns
- Critical asset visibility concerns

Finding Validation

No validated findings mapped.

Recommended Supervisory Actions

- Assess detection use cases and alert handling maturity
- Review investigation documentation and evidence collection practices
- Review monitoring coverage for important assets
- Conduct targeted review of identified control weaknesses

Peer Benchmarking

- Overall risk significantly above peer baseline

Entity Assessment: CSE_002

Overall Risk Score: 7.5/100

Risk Level: LOW

Review Priority: ROUTINE REVIEW

Capability Assessment

Capability	Risk
Detection	LOW
Investigation	LOW
Monitoring	LOW

Risk Drivers

- 1 execution gap indicators
- 1 monitoring coverage gaps

Finding Validation

No validated findings mapped.

Recommended Supervisory Actions

- Continue periodic supervisory monitoring

Peer Benchmarking

- No significant deviation from peer baseline

Entity Assessment: CSE_003

Overall Risk Score: 59.5/100

Risk Level: MEDIUM

Review Priority: TARGETED REVIEW

Capability Assessment

Capability	Risk
Detection	MEDIUM
Investigation	MEDIUM
Monitoring	MEDIUM

Risk Drivers

- 6 execution gap indicators
- 5 monitoring coverage gaps
- Investigation maturity concerns
- Critical asset visibility concerns

Finding Validation

Finding: Potential Superficial Investigation

Alert: ALERT_00226

Confidence: 70%

Status: EVIDENCE_SUPPORTED

Evidence: No investigation evidence recorded | Root cause not identified | No remediation action recorded

Finding: Potential Superficial Investigation

Alert: ALERT_00469

Confidence: 70%

Status: EVIDENCE_SUPPORTED

Evidence: No investigation evidence recorded | Root cause not identified | No remediation action recorded

Recommended Supervisory Actions

- Assess detection use cases and alert handling maturity
- Review investigation documentation and evidence collection practices
- Review monitoring coverage for important assets
- Conduct targeted review of identified control weaknesses

Peer Benchmarking

- Overall risk significantly above peer baseline
- Monitoring coverage weakness exceeds peer baseline

Entity Assessment: CSE_004

Overall Risk Score: 7.0/100

Risk Level: LOW

Review Priority: ROUTINE REVIEW

Capability Assessment

Capability	Risk

Investigation	LOW
Monitoring	LOW

Risk Drivers

- 1 execution gap indicators

Finding Validation

Finding: Suspicious Fast Alert Closure

Alert: ALERT_00109

Confidence: 65%

Status: EVIDENCE_SUPPORTED

Evidence: High severity alert closed unusually quickly | Detected as anomalous by Isolation Forest

Finding: Suspicious Fast Alert Closure

Alert: ALERT_00131

Confidence: 65%

Status: EVIDENCE_SUPPORTED

Evidence: High severity alert closed unusually quickly | Detected as anomalous by Isolation Forest

Recommended Supervisory Actions

- Continue periodic supervisory monitoring

Peer Benchmarking

- No significant deviation from peer baseline

Entity Assessment: CSE_005

Overall Risk Score: 64.5/100

Risk Level: HIGH

Review Priority: IMMEDIATE REVIEW

Capability Assessment

Capability	Risk
Detection	MEDIUM
Investigation	HIGH
Monitoring	MEDIUM

Risk Drivers

- 8 execution gap indicators
- 4 monitoring coverage gaps
- Investigation maturity concerns
- Critical asset visibility concerns

Finding Validation

No validated findings mapped.

Recommended Supervisory Actions

- Assess detection use cases and alert handling maturity
- Perform SOC investigation workflow review and validate RCA quality
- Review monitoring coverage for important assets
- Conduct detailed supervisory examination and sample-based validation

Peer Benchmarking

- Overall risk significantly above peer baseline

Entity Assessment: CSE_006

Overall Risk Score: 14.0/100

Risk Level: LOW

Review Priority: ROUTINE REVIEW

Capability Assessment
